### ABOUT ME

Construction Engineer, determined and responsible, with sufficient tools to perform in challenging work situations. This has given me the skills to lead teams, provide effective solutions through effective communication and solve different problems that may arise throughout the development of activities.

### WORK EXPERIENCE

- Technical Office**  
[Pavimentos Pulidos e Industriales Hermanos Ltda.](#)  
[January 2024 - Present.](#)  
Performing tasks such as; preparation of quotations for different projects, visits to construction sites, cubic calculations, price analysis, cost control of works.
- Technical Secretary of expeditor**  
[Bechtel Chile Constructions; Minera Los Pelambres \(INCO\)](#)  
[Oct. 2022 - Sept. 2023](#)  
Developing activities such as, daily reports of sending and receiving materials, creating progress reports of activities performed, coordinating teams to perform tasks, as well as performing field work. Achieving in this way, optimizing the routes and reducing delivery times of materials at different points of work.
- Quality Control Inspector.**  
[Decofrut; Miami - Savannah; USA](#)  
[Jan.2022 - Abril 2022](#)  
In charge of the reception, revision and categorization of fresh fruit imported to the USA, to then make a detailed report for the importing clients.
- Head of Technical Office**  
[Constructora Mauricio Minck y Cia; Temuco.](#)  
[March 2021 - May 2021](#)  
Performing technical office work, making monthly payment statements, quality control, economic analysis, cubic calculations, making drawings, quoting items and materials, ordering materials, assistant with weekly schedules. Thanks to the efforts made, it was possible to reduce costs in different items, as well as to shorten work times and return to the progress curve projected in the Gantt chart.
