Dear Mr/MS

I have been working as consultant in engineering management since 2010, also in project that involve business management and market expertise in infrastructure for construction and fabrication projects.

My experience involves working in the private and government sector in productivity projects which my knowledge applied procedures on technology and innovation for Selecting the best in class business procedure.

My actual roles are a Consultant in Engineering Management, by The Governance.

You're sincerely;

Jorge Antonio Ibanez Vasquez.

JORGE ANTONIO IBANEZ VASQUEZ

Perth Australia WA, LOCH ST 60, Nedlands.

Nationality: Chilean / Australian Citizenship Born in Chile. 61 0469227868

QUALIFICATIONS.

- 1997-1999 Master engineering sc management ID2163801 UNSW.
- 1995-1997 Mechanical/Manufacturing Engineer.
University of New South Wales
- 2010-2014 Master of Business Administration UON

PROFESSIONALS.

- 2008 – 2009** QLD Aerospace Engineering CASA Certification.
- 2007 – 2008** Card Induction, Construction Management QLD State
- 2015** License WPW01 Work on or About the Railway Track- Includes
Electrification, certification. Australia.
- 2015** Certification for CAT bulldozer HR Driver and operations.

Summary.

I have 14 years project management experience. Qualified ISO 9004, 14001, I have developed innovative infrastructure projects for NSW, NT, and QLD State Governments. I also have strong knowledge and experience in engineering management. Finance Management activity basic costing, ABC delegated to ASX ATO Australia, share values calculation Financial accounting, prices and alliance calculation angle of business and participation, FMs flexible manufacturing and CIM platform e commerce supply chain management production relevant market expertise.

PROFESSIONAL EXPERIENCE

2012-2015.

Actual Project Director

Company:

Australian and Chilean Enterprises PTY LTD

FFAA CHILE Manufacturing engineering

www.Enaer.cl www.famae.cl www.Asmar.cl / www.Escuelacarabineros.cl

Role: Director Project/Production Management.

- Synchronization of Asset Management, liability and equity values beyond Quality Function Deployment QFD and quantification. Fuzzy Logic.
- Automation lines CATIA Apt 3D from ISO 9000 al ISO 9004 enable Business simulation 9000 core and span ISO 9004 derivative and integration.
